Best Trades of the Week

10 Feb 2020	Profit of Rs. 36,396
11 Feb 2020	Profit of Rs. 51,511
12 Feb 2020	Profit of Rs. 26,690
13 Feb 2020	Profit of Rs. 34,020
14 Feb 2020	Profit of Rs. 62,031

After seeing a V-shape recovery in the post Budget week, the Indian indices saw consolidation in the week ended February 14 among mixed global cues due to coronavirus fears. Benchmark indices finished with little change in the volatile week as the Sensex added 115.89 points to end at 41,257.74 and the Nifty50 rose 15.15 points to close at 12,113.5.

Last week, one of our traders made a profit of Rs. 83,231 on 06 Feb, 2020. This week, one of our traders made a profit of Rs. 62,031 on 14 Feb, 2020. All other days were also ended in profits. But the maximum profit is achieved on 14 Feb, 2020.

Making a consistent profit should be the key parameter if you are trading or investment. No doubt, you can make a big profit one day but being in profit is a challenge. If you are able to make small profits consistently, it is even better than making a big profit. As the figure for a big profit is huge, there is a great chance of losing money and making big losses. This kind of trading can only be done under the guidance of professionals as in our case is Mr. Yogeshwar Vashishtha. All these profits are made under the guidance of Yogeshwar sir who trained many people and doing trading from many years.

If you have learned the stock market technical and fundamentals properly, then you should only be working towards making consistent profit. Don't try to chase people who are making big profits. Even if you are able to make small profits; slowly and steadily, you will also be able to make such big profits. The key to success here is, never allow yourself or prepare yourself for a big loss. Always work on reducing risk and making consistent profits.

Vodafone-Idea to pay AGR dues but uncertain on future course; DoT mulls penal action

Debt-ridden telecom operator Vodafone Idea on Saturday said it is assessing the amount that can be paid towards AGR dues, even as it flagged concerns over the continuation of its business.

The company has maintained that continuation of its business will depend on the outcome of its modification plea filed before the Supreme Court.

The firm is seeking more time to pay the dues, which is estimated to be over Rs 52,000 crore.

The Department of Telecom, which faced the ire of the apex court, is mulling penal action against telecom operators for failing to pay in time the adjusted gross revenue dues.

State Bank of India has expressed concern on the situation and said banks will have to pay the price if any telecom company shuts down.

Besides the AGR dues, Vodafone Idea's gross debt, excluding lease liabilities, was Rs 1,15,850 crore as on December 31, 2019, including deferred spectrum payment obligations of Rs 88,530 crore due to the government.
