### ***Reliance Industries at life-time high; stock has surged over 27% this year***

The market was trading higher in the afternoon on September 27, mainly supported by the heavyweights like Reliance Industries (RIL) that touched a record high of Rs 2,525 intraday and was quoting at Rs 2,522.90, up Rs 39.95, or 1.61 percent, on the BSE.

The investors are banking on the growth story of the company, thanks to the visible progress on the front of Reliance Aramco deal, rapidly increasing digital footprint of Reliance Jio, healthy growth prospects of Reliance Retail and the company's plans for its renewable energy business, analysts said.

The share has risen more than 27 percent in 2021 after it closed at Rs 1,984.65 on December 31, 2020.

Earlier, the company's subsidiary Reliance Strategic Business Ventures (RSBVL) acquired 2,28,42,654 equity shares of Rs 10 each of Strand Life Sciences for a cash consideration of Rs 393 crore.

A further investment of up to Rs 160 crore is expected to be completed by March 2023, RIL said in a regulatory filing, adding that the total investment will translate into 80.3 percent of equity share capital in Strand on a fully diluted basis.

### ***Best Trades of the Week***

20 Sep 2021 Profit of Rs. 86,475  
21 Sep 2021 Profit of Rs. 35,710  
22 Sep 2021 Profit of Rs. 330,200  
23 Sep 2021 Profit of Rs. 140,119  
24 Sep 2021 Profit of Rs. 84,584

The market had a historic day as the BSE Sensex closed above the 60,000-mark for the first time on the September 24 despite the weakness in global peers. The upward momentum was backed by buying in IT, select banking & financials and auto stocks. In this week as well, one of our traders made a profit of Rs. 330,200 on 22 Sep 2021, the highest of all other days in a week.

Making a consistent profit should be the ideal approach rather than looking at the percentage of profits. Yogeshwar sir always teach one important rule of the stock market which is "Always work on reducing your risk and never allow yourself to take a big loss."

If you want to stay in the stock market game, then you should work on making a consistent profit and reducing your risk. Risk management is the key to success here. I believe, people who don't follow proper risk management, always find themselves in the struggle. No doubt, you would have made a big profit some days. But the real challenge is to maintain that kind of profits everyday day. If you are making Rs. One lack in a day and losing the

same on other days. You are not working as a professional trader. I can assume this sort of profit-making is through gambling.

What we have learned at Pathfinders Trainings, you can see the results of that learning by looking at the profits made by professional traders. Every trade is good, even you make less profit. But working on not making big losses in the market should be our priority. If we have the capital to play in the market, our small loss can be turned into a small profit and with consistency, into a big profit.

### ***ZEEL-Sony deal: Non-binding nature, new Sebi regulations reason for Invesco pressing for EGM***

A bird in hand is better than two in the bush. Why is Invesco Oppenheimer ignoring a deal loved by stock markets, and insisting on an extraordinary general meeting (EGM) to oust Zee Entertainment Enterprises Ltd (ZEEL) MD & CEO Punit Goenka and to reconstitute the board?

One immediate reason is a change in Sebi regulation on the appointment of independent directors, which takes effect in January 2022.

According to the new regulation, the appointment, re-appointment and removal of independent directors will require a special resolution, with the number of votes in favour more than three times those against. Currently, regulations require only 50 percent vote share for the same.
