Sunteck Realty share price hits 52-week high on improved numbers

Adani Power share price jumped more than 7 per cent intraday on January 10 after the company settled a dispute with the Gujarat discom.

The stock was trading at Rs 108.25, up Rs 8.05, or 8.03 percent at 2.15 pm on BSE. It touched an intraday high of Rs 110.20 and an intraday low of Rs 98.75.

The scrip was trading with volumes of 7,381,969 shares, compared to its five-day average of 1,066,679, an increase of 592.05 percent.

Locked in a legal tussle since 2010, Adani Power Mundra and Gujarat Urja Vikas Nigam (GUVN) reached an out-of-court settlement, media reports have said.

Adani Power agreed to relinquish compensation from Gujarat Urja and will not terminate the power purchase agreement. The compensation amount is estimated to run into thousands of crores, the reports claimed.

In September 2021, GUVNL filed a curative petition in the Supreme Court, asking for a review of a 2019 order that favoured Adani. In a December 4, 2021 order, the court said the two parties reached a settlement, reports said.

The market started off the second week of the year on a strong note with the BSE Sensex reclaiming 60,000 mark and the Nifty50 closing above the psychological 18,000-mark, on January 10, despite mixed trend in global markets.

The broader market also traded in line with the equity benchmarks as the Nifty Midcap 100 and Smallcap 100 indices jumped 0.8 percent and 1.3 percent, respectively. In this week as well, one of our traders made a profit of Rs. 207,772 on 04 Jan, 2022, the highest of all other days in a week.

Making a consistent profit should be the ideal approach rather than looking at the percentage of profits. Yogeshwar sir always teach one important rule of the stock market which is “Always work on reducing your risk and never allow yourself to take a big loss.”

If you want to stay in the stock market game, then you should work on making a consistent profit and reducing your risk. Risk management is the key to success here. I believe, people who don't follow proper risk manage-

ment, always find themselves in the struggle. No doubt, you would have made a big profit some days. But the real challenge is to maintain that kind of profits everyday day. If you are making Rs. One lack in a day and losing the same on other days. You are not working as a professional trader. I can assume this sort of profit-making is through gambling.

What we have learned at Pathfinders Trainings, you can see the results of that learning by looking at the profits made by professional traders. Every trade is good, even you make less profit. But working on not making big losses in the market should be our priority. If we

have the capital to play in the market, our small loss can be turned into a small profit and with consistency, into a big profit.
